## New Cancer Center in Pendleton, Oregon

To kick-off 2020, we opened our newest cancer center in Pendleton, Oregon. Eastern Oregon Cancer Center at Pendleton will serve the citizens of eastern Oregon who previously had to drive long distances to receive radiation therapy.

This center keeps our mission in perspective. We practice HOPE because we believe that everyone should have access to quality cancer care. I am humbled and grateful to work with such a purpose driven group of people who keep our mission at the center of everything they do.

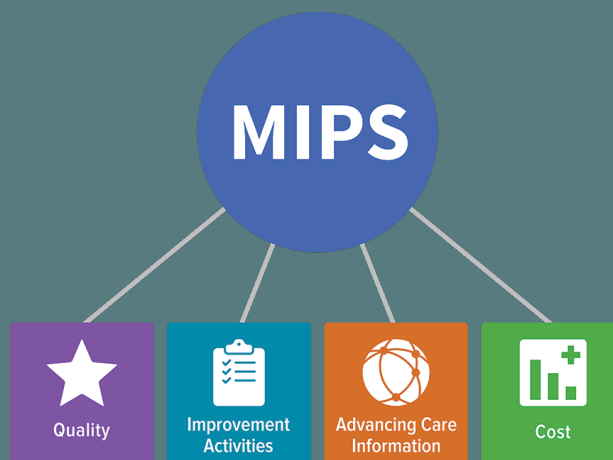

Grateful,

## MIPS 2020

In 2018, RBS helped our MIPS eligible providers avoid a total of \$130,000 in negative adjustments on their 2020 Medicare payments. In fact, those that used us for reporting averaged a +1.82% incentive. For 2019, we are on track to do the same.

## RBSCares Making an Impact

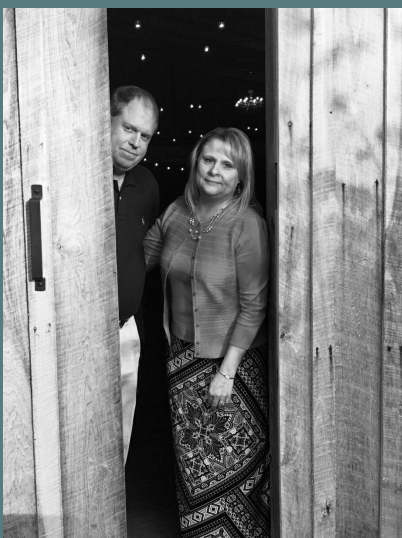

Have you heard about our new program, RBSCares? We are giving back a percentage of our fees directly to our clients so that they can provide financial support to patients in need or assist their local community nonprofits. It's just another way that we are sustaining our mission to reduce patient financial anxiety and to improve the communities in which our members serve.

A client recently used their entire RBSCares balance to help pay for treatments for an employee who is battling cancer.

Together we can make a difference in your community!

## Meet Angela

Angela has been with RBS for four years as our Credentialing Coordinator. Angela ensures that all of our physician clients credentials are complete and accurate so that they can be paid for services rendered. Angela's integrity is admired by clients and co-workers alike.

When not at the office, Angela enjoys spending time with her family and shih tzu, Murphy. If she won the lottery, Angela would enjoy not having a schedule and being able to help others especially those who are sick or elderly.

Angela loves working at RBS because she is

able to work in the community where she lives and make a difference for patients. Angela, we appreciate your commitment to our physician clients and patients. Thank you for being a shining example of the RBS mission.
