

We serve over 2,700 patients per day and over 200 radiation oncologists across the country. Our national presence means we are at the forefront of important payor discussions.

- ★ RBS Corporate Office
- ★ RBS Regional Offices
- ★ RBSE Locations
- Client Locations

Switching is hassle-free

- ▶ 90-day implementation (or less!)
- ▶ No reduction in cash flow
- ▶ Seamless transition for your patients

We're fighting for you so that you can get back to fighting cancer.

Every day, we help oncologists and hospitals to increase the value of their oncology programs, so that they can improve the quality of cancer care in their communities. Whatever you need, we have the solution.

Your time is valuable.

Spend it fighting cancer instead of fighting with insurance companies.

As a radiation oncologist, you're fighting the effects of cancer. At Radiation Business Solutions we're fighting too. Fighting for fewer claim denials, less billing and coding mishaps, and to ease the burden of cancer on patients and physicians.

At RBS, we believe that patients should never have to choose between paying their bills and receiving the care they need. We also believe physicians deserve fair payment for their services without the hassle from payors.

We Get Results Others Can't.

For Patients

- ▶ Cancer Coaching to help patients at every step of their journey
- ▶ Transparent and timely financial discussions
- ▶ Lower out-of-pocket costs for patients
- ▶ Fair payment terms
- ▶ Always a live person answering the phones
- ▶ Direct access to real people

"I called RBS ahead of my treatment to let them know my insurance would most likely deny my authorization request for treatment. They quickly called my treatment site to check on my authorization. It had been denied that day. They were able to immediately get to work on getting this overturned and ultimately approved. I was so thankful they listened to me, took my concerns seriously, and were quick to act."

Cancer Patient, Washington

For Physicians

We own and operate our own cancer centers and know the frustration of dealing with insurance companies first hand. We plow through billing and prior authorization road blocks so that you can focus on patient care.

- ▶ Complete revenue cycle management
- ▶ Coding services
- ▶ Net revenue reports so you know exactly what your cash flow will be
- ▶ Reduced denials and improved collections
- ▶ Audits and other consulting services

"We have found that the value RBS brings to our practice far exceeds the cost. There is much less stress and ultimately it is less expensive than in-house billing."

Darren Little, MD, Northwest Washington Radiation Oncology Associates
